Dear Mr. President:

Your letter of August 26 establishing the Interdepartmental Committee on Migratory Labor brings to this Department a welcome responsibility. The social problems of migratory farm workers have long been of deep concern to this Department in all three fields of health, education, and welfare.

I am, therefore, happy to serve on the new Committee and to bring the resources of this Department to bear on the problem, in conjunction with other Departments of the Federal Government.

Respectfully yours,

Secretary

The President
